

SHOWKILLERS 2009!

Written by Karen Woodward

Ladies and gentlemen, it's time for the Showkillers 2009 Edition! Below is a list of actors whose very presence insures that a show will die.

Jason O'Mara: I've put him on my list before, but I just can't say this enough. I adore the guy (huge crush), but he kills shows. Namely, "The Agency," "InJustice," "Life on Mars," and "Men in Trees." Put this guy on a cable show so we can see him naked.

Donal Logue: Grounded for "Life," "The Knights of Prosperity," and "Grounded for Life." Donal, I'm funnier than you. Enough.
