

Misty Returns! Kerri Moms It Up!

Written by Dave Howard

Papa was a rodeo. Mama was a rock-n-roll band.

And that's what we have next year. Misty May is in. Kerri Walsh is out. Kerri done got herself knocked up again. So the dynamic duo is not going to have their trademark derring do for another year.

Now Kerri has always been the rodeo. Misty has always been rock-n-roll. Kerri has always been the uptight, serious athlete. Misty has fun with it and dances her way on to the court. Kerri always embraced Bush. Misty tried to get him slap her ass during a photo-op. The fun is back at the beach.

But now Misty needs a new partner. Who wants to be golden? Elaine Youngs? I doubt it. While Misty has often chosen her as a partner at the Queen of the Beach tournaments, I think EY found her partner in Nicole Brannagh. But is EY retiring? She is inching towards 40 but just came off her best season in a while.

Maya and I were both Keweenaw residents for many years before we moved to the Akwesasne Reservation in 1995. We have lived in the Akwesasne Reservation since then.
