

Progress! John McCain has made the taboo mainstream!

An experiment is what language means.

In my day there was one word we couldn't say. Over the years the woman's main orifice has been described in mainstream conversations and on TMZ! as:

Pussy

Vagina

Vah-jay-jay

Cooter (which brings up confusion with the "Dukes of Hazzard" character)

He-Haa-Waa-Waa

Hootchie

Love Muffin

Da PB and J

The Waxie

Geronimo

Has cunt finally made it to the mainstream?
